

A man in a light green t-shirt is smiling and holding a smartphone in a clothing store. The store is filled with various hoodies hanging on racks. In the foreground, a pink hoodie with the text "DON'T GIVE UP EASILY" is visible. The background shows more colorful hoodies in shades of purple, blue, yellow, and red. The store has a wooden ceiling and track lighting.

Estampado 025 SKYLINE

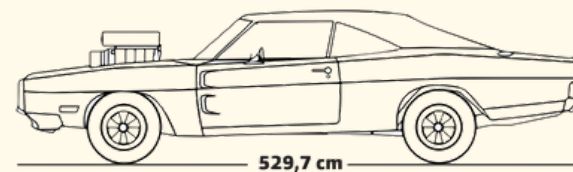

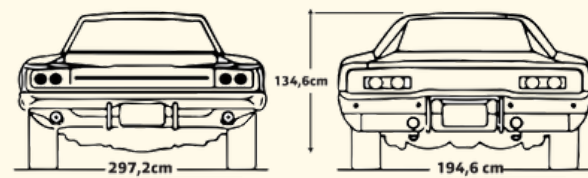

The Nissan Skyline R34
- Nissan has a rich history -

It is a Japanese car model that has produced in different in three of them BMW an AWD. It was created as a family car, as it was a four-door sedan, with a large carrying capacity and a very complete safety equipment. Despite this, as time went by, it was given a sportier character, as it was soon launched in its coupe version and later the well-known GT-R. Even today the Skyline GT-R is the symbol of the success of Japanese engineering creating a car capable of competing with other cars that can cost more than three times more. It has also become a favorite among fans of high-performance cars, since with slight modifications it is possible to go from the standard 279 hp to 600 hp. And with much more aggressive modifications it can exceed 2000 hp.

Estampado 026 THE DODGE CHARGER

THE DODGE CHARGER 'Domestic. Not Domesticated'

The Dodge Charger is a sports car produced by the American manufacturer Dodge, a division of the Stellantis group. To date, there are different generations on three different platforms. This name is generally associated with a performance model in the Dodge range, although it has also been carried on a hatchback, a sedan and a personal luxury coupe.

PORCSHE

Under the rear lid, the 4.0 liters engine was a marvelous technological achievement. The flat-six was naturally aspirated and produced an prodigious amount of power. Thanks to its intake with airspace (rematerialized, the engine 8800 rpm. Its was developed 7-speed transmission with "Pit-lane speed limit".

The Porsche 911 RS is a high-performance sport car known for its track-focused design and exhilarating attributes. It features a naturally aspirated engine, advanced weight materials, and is designed for enthusiasts promising driving pleasure.

Porsche 911 GT3 RS

Introduced in 2003, the Porsche 911 GT3 RS stands as a testament to the legacy of pure driving pleasure. This track-focused marvel exudes an aura of unbridled athleticism and uncompromising performance that leaves car enthusiasts in awe. Every aspect of its design is meticulously crafted to deliver an exhilarating experience that captivates the senses. At first glance, the 911 GT3 RS commands attention with its unmistakable presence. Its sleek and aggressive silhouette hints at the incredible power that lies beneath its hood. Aerodynamic enhancements, such as an adjustable rear wing and large air intakes, demonstrate Porsche's relentless pursuit of speed and precision.

SANTIAGO
BERNABEU

This is how the Santiago Bernabéu becomes part of a group of legendary stadiums such as: The Allianz Arena in Munich, Wembley in London and the Olympic Stadium in Rome, to name a few.

Among other curious facts about the Santiago Bernabéu, did you know that it is the best air-conditioned stadium in the world? It has more than 1,300 heaters installed so that visitors do not suffer so much from the cold when playing in the middle of winter.

Names like U2, Bruce Springsteen and The Rolling Stones are some of the stars who have chosen the Santiago Bernabéu as the setting for their concerts.

Cristiano Ronaldo scores his 4000th goal, going down in history as one of the best soccer players of all time.
